Blubridge Assessment - 2 Day Practice PDF

This PDF contains 2 mini mock sets (Quantitative Aptitude + Logical Reasoning) designed to help you prepare for the Blubridge Technologies assessment in just 2 days. Use a timer to simulate test conditions.

Mini Mock Set 1

1. A man can complete a piece of work in 10 days. His friend can do the same work in 15 days. If they work together, how long will it take to finish the work?

2. The average of 5 numbers is 36. If one number is excluded, the average becomes 34. What is the excluded number?

3. A car travels 90 km at a speed of 45 km/hr. How much time does it take?

4. What comes next in the series: 2, 6, 12, 20, ?

5. If A is the brother of B, B is the sister of C, and C is the father of D, how is A related to D?

6. Pointing to a person, Ravi said, 'He is the son of the only son of my grandfather.' How is the person related to Ravi?

7. In a certain code, 'ROAD' is written as 'URDG'. How is 'RAIL' written in that code?

8. Which number is the odd one out: 121, 144, 169, 196, 225, 234?

Mini Mock Set 2

1. If 12 men can do a work in 8 days, how many men are needed to complete it in 6 days?

2. A shopkeeper marks an item 20% above cost price and gives a discount of 10%. What is the profit percent?

3. Find the next number in the pattern: 3, 6, 11, 18, 27, ?

4. If North becomes East, East becomes South, what will West become?

5. In a row of boys, John is 10th from the left and David is 15th from the right. If there are 5 boys between them, how many boys are there in the row?

6. Which word does not belong to the group: Apple, Banana, Carrot, Mango, Orange?

7. Complete the series: A, D, G, J, ?

8. If $5x + 3 = 18$, find the value of x.
